CONNECTIONS

Quote of the Month:

"Quality means doing it right when no one is looking"

-Henry Ford .

Welcome to CONNECTIONS

This is a new newsletter that is scheduled to be published on an "as need basis" for a short trial period. At this point, electronic copies will be sent out to every plant & Chairman that has submitted a valid email address. Other plants will receive the newsletter by a method conducive to their situation. Eventually, all news and events will be posted on our new website, www.seedprocessors.ca.

The goal of the new format is to bring information in a timelier manner to all members of the Association. Also, as the name indicates, being connected with one another is important in this diverse and dynamic industry. The intent is to provide an intermediate style of communication, with the goal of eliminating the newsletter when all members have access, and are comfortable with using the web site.

63rd ANNUAL GENERAL MEETING

By all accounts, the AGM, held January 13-15, 2016 was a success. Approximately 190 attendees representing 48 separate plants, and over 24 suppliers were in attendance. Minutes to the meeting will be posted at seedprocessors.ca in mid-March. The Round Table sessions were well

attended with outstanding engagement by all participants. One item that came out of the round table discussions is that better

communication between the Provincial Board, Managers and Local Boards is required. To that end, we are

experimenting with this 'informal' style of newsletter, designed to keep everyone up to date.

NEW DIRECTOR ELECTED FOR REGION 7

The Provincial Board is pleased to welcome Hector Ouellette from the Falher Plant to represent region 7 on the Provincial Board.

Hello ,
My name is Hector Ouellette I'm from the Girouxville Area. I've been involved in the farm 30 + years

I also own a small trucking company in the oilfield Have been on the board of directors of the Falher coop seed plant for 13 years now

Looking forward to expanding myself in this new position at the provincial level and hope to bring some new ideas to provide a bright future for the Association.

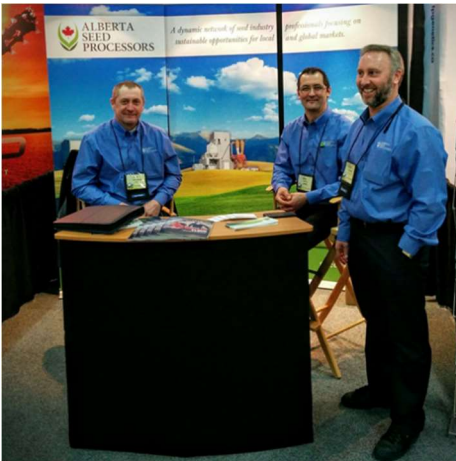

Hector 780-837-1010

Seeking Director for Region 3

If anyone is interested in representing region 3 on the Provincial Board of Director's, please contact Dave Bishop (President) at 403 382 9786. To be on the Provincial Board, a person must be a shareholder of one of the plants in the associated region. Board experience is preferred, but not absolutely necessary.

Raising the profile of the Alberta Seed Processors at Farm Tech 2016

The Association was a bronze sponsor at Farm Tech @ 2016, with a couple manager's and Provincial Board Members attending the conference and staffing the trade show booth. One of the keynote speakers outlined how the Disney® Corporation always runs a great business. Insight into staff training outlined 4 basic pillars on which all Disney employees are trained: In order of importance: 1) SAFETY, 2) COURTESY, 3) SHOW (or quality of the

job). 4) CAPACITY (or values related to business volumes and profit). Not such a goofy idea: after all Disney reported profits of 7.84 Billion in 2015. (Yes that is in US Dollars).

Check out our NEW e- Home

www.seedprocessors.ca is now up & running. There are a few glitches that need to be ironed out such as getting all members plants an individual profile (stay tuned, I'll let you know when this is fixed)

Find Alberta Seed Processors on Twitter
[@abseedpro](https://twitter.com/abseedpro)

Membership Invoicing & Profile Updates

Every plant should have received their invoice and profile update. Please note that the invoices need to be paid in full no later than March 31, 2016. If you have misplaced, or did not receive an invoice, please contact Monica at 403 489 9999 or monica.klaas@seedprocessors.ca as soon as possible. Membership Updates are also due by the end of March. Updating your profile is important to ensure your plant's contact information, and services are correctly listed. Please do not forget to include an email address for the Chairman of your plant's Board.

Plant Breeder's Rights Grower Declaration

ALL member plants received a draft copy of the recommended grower declaration, as well as a sample plant policy, and background cover letter. If you have misplaced the copy of your declaration, please contact Monica ASAP. Remember, a well handled grower sign off program goes a long way to limit the Plants, the staff & the Board's liability. Plant Breeders Rights HAVE changed, hence our business practices need to change to accommodate the new legislation. Need more info? Try pbrfacts.ca.

Registered Varieties & PBR Data Base

CONNECTIONS

Quote of the Month:

"Quality means doing it right when no one is looking"

-Henry Ford .

Welcome to CONNECTIONS

This is a new newsletter that is scheduled to be published on an "as need basis" for a short trial period. At this point, electronic copies will be sent out to every plant & Chairman that has submitted a valid email address. Other plants will receive the newsletter by a method conducive to their situation. Eventually, all news and events will be posted on our new website, www.seedprocessors.ca.

The goal of the new format is to bring information in a timelier manner to all members of the Association. Also, as the name indicates, being connected with one another is important in this diverse and dynamic industry. The intent is to provide an intermediate style of communication, with the goal of eliminating the newsletter when all members have access, and are comfortable with using the web site.

63rd ANNUAL GENERAL MEETING

By all accounts, the AGM, held January 13-15, 2016 was a success. Approximately 190 attendees representing 48 separate plants, and over 24 suppliers were in attendance. Minutes to the meeting will be posted at seedprocessors.ca in mid-March. The Round Table sessions were well

attended with outstanding engagement by all participants. One item that came out of the round table discussions is that better

communication between the Provincial Board, Managers and Local Boards is required. To that end, we are

experimenting with this 'informal' style of newsletter, designed to keep everyone up to date.

NEW DIRECTOR ELECTED FOR REGION 7

The Provincial Board is pleased to welcome Hector Ouellette from the Falher Plant to represent region 7 on the Provincial Board.

Hello ,
My name is Hector Ouellette I'm from the Girouxville Area. I've been involved in the farm 30 + years

I also own a small trucking company in the oilfield Have been on the board of directors of the Falher coop seed plant for 13 years now Looking forward to expanding myself in this new position at the provincial level and hope to bring some new ideas to provide a bright future for the Association.

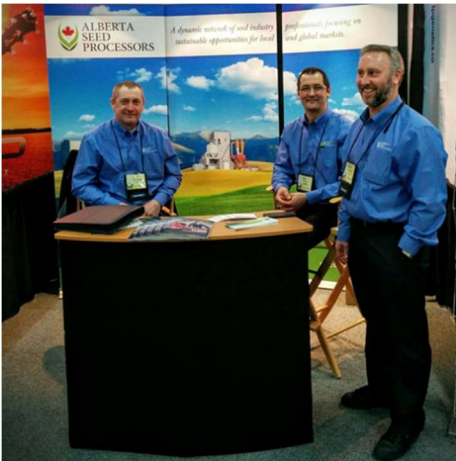

Hector 780-837-1010

Seeking Director for Region 3

If anyone is interested in representing region 3 on the Provincial Board of Director's, please contact Dave Bishop (President) at 403 382 9786. To be on the Provincial Board, a person must be a shareholder of one of the plants in the associated region. Board experience is preferred, but not absolutely necessary.

Raising the profile of the Alberta Seed Processors at Farm Tech 2016

The Association was a bronze sponsor at Farm Tech @ 2016, with a couple manager's and Provincial Board Members attending the conference and staffing the trade show booth. One of the keynote speakers outlined how the Disney® Corporation always runs a great business. Insight into staff training outlined 4 basic pillars on which all Disney employees are trained: In order of importance: 1) SAFETY, 2) COURTESY, 3) SHOW (or quality of the

job). 4) CAPACITY (or values related to business volumes and profit). Not such a goofy idea: after all Disney reported profits of 7.84 Billion in 2015. (Yes that is in US Dollars).

Check out our NEW e- Home

www.seedprocessors.ca is now up & running. There are a few glitches that need to be ironed out such as getting all members plants an individual profile (stay tuned, I'll let you know when this is fixed)

Find Alberta Seed Processors on Twitter
[@abseedpro](https://twitter.com/abseedpro)

Membership Invoicing & Profile Updates

Every plant should have received their invoice and profile update. Please note that the invoices need to be paid in full no later than March 31, 2016. If you have misplaced, or did not receive an invoice, please contact Monica at 403 489 9999 or monica.klaas@seedprocessors.ca as soon as possible. Membership Updates are also due by the end of March. Updating your profile is important to ensure your plant's contact information, and services are correctly listed. Please do not forget to include an email address for the Chairman of your plant's Board.

Plant Breeder's Rights Grower Declaration

ALL member plants received a draft copy of the recommended grower declaration, as well as a sample plant policy, and background cover letter. If you have misplaced the copy of your declaration, please contact Monica ASAP. Remember, a well handled grower sign off program goes a long way to limit the Plants, the staff & the Board's liability. Plant Breeders Rights HAVE changed, hence our business practices need to change to accommodate the new legislation. Need more info? Try pbrfacts.ca.

Registered Varieties & PBR Data Base

Need to know the registration status of a variety, and the PBR designation? Go to cdnseed.org and click on the "Library" tab for a complete listing.
