

## Special: Seed Protectant Certification Class Recertification Program

The Recertification Program initiative for the Special: Seed Protectant Certification Class has been determined by the Seed Protectant Advisory Committee. The Committee is comprised of industry and government representatives and includes representatives from the Alberta Chapter of the Canadian Seed Grower Association and the Association of Alberta Co-op Seed Cleaning Plants. For more information on pesticide recertification, call 780 538-6460.

Applicators must meet the recertification requirement by rewriting the certification exam or obtaining 15 continuing education credits. Courses/Sessions approved for continuing education credit are listed below.

### NOTE:

- **Standardized Sessions (sessions where the course content does not change) can only be taken ONCE for credit in a certification period**
  - For example, the PD Solutions IPM Fundamentals Course can only be taken once for credit in an applicator's certification period
- **Only ONE of the sessions that are based on the Lakeland College Authorized Assistant (core lesson) homestudy course (yellow-shaded sessions in the table below) can be taken for credit in a certification period**
  - For example, if an applicator takes the first day of an applicator tutorial, they cannot get additional credits for taking the Authorized Assistant or Olds College Core Review Session as they are all based on the Lakeland College homestudy course
- **All classes of applicators can take an unlimited number of online LIVE training (currently only offered by PD Solutions) - However, they can only obtain 2 credits through ARCHIVE training**
  - For example, UNIVAR Training

Session/Course Name	Location	Contact	Approved Certification Class(es)	No. of Credits/concept
Pesticide Applicator Tutorial Workshop	<b>Lakeland College, Edmonton March 21-22, 2018 Fall 2018</b>	1-866-853-8646	All Certification Classes	2 - Regulations 1 - Health & Safety 1 - Labelling 1 - Environment 1 - Emergency Response
